Complaints

1	The problem I have with a lot of brands is the irritation that sets in by the second day of use. The materials should be soft a..
2	pay attention to length; stickiness and width to avoid staining
3	Length of pad. Make it longer
4	.
8	Keep up the good work
5	It should always be comfortable and to feel safe using it
6	Do more extensive research on the materials used for pads sold in Nigeria. As someone with a sensitive skin it has always ..
7	Nil
9	More absorbent and less menthol
10	Length
11	The gum used to hold sanitary pads to the panties should be enough to let the pant sit on the butt for 6 hours at least
12	Increase more of the pads used during heavy flow
13	Comfort; I get sensitive
14	Affordability beats all so a pad shouldn't be expensive cause we all seek comfort after all
15	Put heavy flow girls in mind
16	Make products that prioritize comfort and inclusivity
17	To increase the length of the pad
18	Better hold on pads
19	Cost and comfort
20	Comfort
21	Putting more glue in the wings of the pad
22	free pad
23	Develop products with unique features for pain relief
24	Their sensitivity to skin especially during hot weather. Also i feel like some pads should be extra long to be comfortable es..
25	To make each pads longer in length
26	I need menstrual pads to stick properly. The adhesive isn't strong at all
27	They should improve the gum that stick the pad to the pant
28	A comfortable feeling
29	Nil
